# LANDRUNNER II™

## Fertilizer Injection Applicator

Designed and built to rugged **BLU-JET** standards. The **LANDRUNNER II's** heavy 4" x 6" tubular framework with deep penetrating welds at critical points give you the strength to tackle any terrain. Versatile row spacing capabilities meet your needs for pre-plant, side-dress and striptill. Deep toolbar rank provides superior residue flow.

37' 15R30  
180 Degree Fold  
Extension Wing

▶ Smooth-operating rocker-plate design provides excellent wing flex to keep knife penetration uniform over uneven terrain and eliminates wing fall during folding

▶ Large, 1-3/4" load bearing wing hinge pins provide long life, maximum flexibility and superior performance

▶ Wheatland and clevis hitch choices match your needs while keeping the 30,400 lb. safety chain within ASAE standard

▶ Fully adjustable wheel tread on singles, duals, and walking tandem wheel assemblies with fully synchronized cylinders

▶ 38" toolbar rank gives superior performance in heavy residue
